

Narcissus

Flower

Out of flower

Description: single: the flower becomes glassy, dries out or shrinks.

cluster: the flowers and/or buds capable of flowering become glassy, dry out or shrink.

Reject: single: if one of these symptoms is observed.

cluster: if more than 50% of the total number of flowers and buds capable of flowering show this symptom.

Opening

Record: moment at which the tepals point outwards.

Percentage in flower (cluster)

Record: the percentage in flower is the ratio of the number of opened flowers and the total number of flowers and buds.

Foliage

Tips of leaves

Description: the leaf and/or the tips of the leaves dry out or show yellowish brown patches and/or spots.

Reject: if more than 50% of the leaf area and/or 50% of the total number of leaves is affected by this symptom.

Stem

Bent

Description: the stem is bent.

Reject: when this is observed.
